CSCS

Everything you need to know about CSCS SmartCards

## What is a CSCS SmartCard?

CSCS Smartcards provide proof that individuals working on construction sites have the required training and qualifications for the type of work they carry out on site

What can they be used for?

- checking CSCS card validity
- verifying construction related qualifications
- access control
- managing training records
- monitoring time and attendance
- bespoke applications

2 million
Current CSCS cards

The majority of principal contractors and clients require workers to hold a CSCS card

The majority of major homebuilders require workers to hold a CSCS card
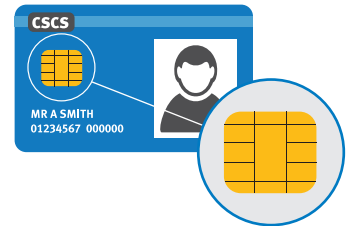

How SmartCards Work

SmartCards can be read using an enabled smartphone, tablet device or card reader connected to a laptop or PC.

Contractors can customise their own app

Secure comms to Smartcard

1. SmartCards can be linked to contractors' HR and training databases

2. App is opened, data checked against contractor database and updated if necessary

3. Updated data is displayed on screen

What are the benefits?

Check CSCS details in seconds | **Issue one card for multiple purposes** | **Reduce admin** | **Cut Costs** | **Manage training and qualifications**
